# BAGAGE AND THE SYMBIOSIS OF NEW MUSIC

Musical pathos is not reprehensible, whether Bagage wants to withhold it to the public. In their music techno meets indie, vigorous beats face empathic melodies. Rough guitar chords, catchy baselines and experimental sounds attempt an exciting symbiosis. Overall a vibrant and fresh sound originated in the capital of Austria. The artists show climaxes at their live performances which takes everybody to the dancefloor.

Bagage was found in 2016 – since then Dan (21, NÖ), Elmo (21, OÖ) and Felix (22, K) cheer up the Viennese music scene. A few shows in autumn 2016 and an intensive recording session followed while they rise in the indie/pop scene. The newcomer group currently revels their first single release additionally with a music video.

After this productive and inspiring preparatory stage, Bagage is ready for the upcoming festival season. With the music label "hairandhead" the newcomer band is excited to release their first single and they are looking forward for future booking enquiries.

Continuous news and exciting insights concerning the music group is pleased to meet you at [www.bagagemusic.com](http://www.bagagemusic.com)
